

# Choose the option that works best for you with our flexible **Payment Plans**

Like most people, you don't want to spend a lot of time paying your bills, including your insurance. We want to help. Therefore, we offer several payment options, so you can choose the one that works best for you.

## **Pre-authorized chequing plan (PAC)**

PAC is an easy, affordable way to pay your insurance premiums via automatic monthly withdrawals from your bank account. Best of all there are no fees for this convenient payment method. You may select to have your insurance premium withdrawn on any date of the month.

## **Multi-payment plan**

Your annual premium is divided into two, three or four equal payments. The first payment is due on the policy effective date. Subsequent payments may be post-dated in 30 day intervals. If you choose any of our post-dated cheque options, please include a \$10.00 service charge with your first payment. If you post-date your payments using online/telephone banking, we will waive the \$10.00 service charge.

## **Online and telephone banking**

Using these convenient services, available through most major banks and other financial institutions, just log on to your bank's Internet banking website or call it's telephone banking number. You simply add Traders General Insurance Company to your bill payee list and enter your account number (which is provided on the upper right hand corner of your invoice).

To choose a payment option on your Aviva Traders policy, contact your broker for assistance.
